Selected by Michael Yanny in 1993 from the production fields at Johnson's Nursery, Inc.™, Firespire® is an upright form with outstanding orange-red fall color. Quite similar in scale and form to *Cornus mas* 'Golden Glory'.

A very useful screening or hedge plant because of its upright habit and tolerance for both sun and shade. Single stemmed plants can be useful as street trees under utility wires.

After ten years, the original plant, which was transplanted twice was seven feet tall and three and a half feet wide.

**Growers Licenses Are Available**
